

FROM QUARRIES TO ROCK-CUT SITES ECHOES OF STONE CRAFTING

CONFERENCE PROGRAMME (time GMT+1)

Chair: Katy Whitaker

THURSDAY 25 MARCH

- 09:00 **Opening remarks**
- 09:20 **KEYNOTE LECTURE:** Marie-Laure DERAT, The historical and archaeological study of the site of Lalibela and its challenges
- 09:40 **Discussion**
- 09:55 **Luc STEVENS**, Qualifications of craftsmen who dug souterrains in France (Xth-XVIIth centuries) – Preliminary results
- 10:15 **Francesca SOGLIANI and Brunella GARGIULO**, The vertical stratigraphy in rock-cut complexes: the case of the church of S. Giovanni in Monterrone in Matera
- 10:35 **Anais LAMESA**, Being left-handed in rock-hewn church worksites in Ethiopia: looking back at a research methodology
- 10:55 **Discussion**
- 11:10 **COFFEE BREAK**
- 11:20 **Jean-Pierre GÉLY and Marc VIRÉ**, The technique of extracting building stone by "stone-walling and back-filling" in Paris: an innovation of the late Middle Ages
- 11:40 **Fernando LIGUE-ENGAMBA**, Stone work on the Mvanda site in Haut-Nyong (East Cameroon): lithic remains and rock's transformation technique
- 12:00 **Manon ROUTHIAU**, First reflections on the structural analysis of rock-hewn caves in Lalibela's landscape, Ethiopia (first results of the surveys)
- 12:20 **Discussion**
- 12:35 **LUNCH BREAK**
- 13:45 **Víctor Manuel LÓPEZ-MENCHERO BENDICHO, Ángel Javier CÁRDENAS MARTÍN-BUITRAGO, Ángel MARCHANTE ORTEGA and Jorge ONRUBIA PINTADO**, The millstone quarry of Piédrola (Alcázar de San Juan, Spain)
- 14:05 **Katarina ŠPREM**, What to Expect When You're Documenting and Excavating a Roman Quarry – Monte Del Vescovo, Istria, Croatia
- 14:25 **Daniel MORLEGHEM**, When quarry waste explains tool marks
- 14:45 **Discussion**
- 15:00 **SHARING IDEAS AND BUILDING BRIDGES** The IRAAR network: an international community for the study of quarries and rock-cut sites

FRIDAY 26 MARCH

- 09:00 **Opening remarks**
- 09:20 **KEYNOTE LECTURE:** Guillaume ROBIN, How do rock-cut architectures relate with their environment? The example of prehistoric rock-cut tombs in Ossi, Sardinia (Italy)
- 09:40 **Discussion**
- 09:55 **Marie-Elise PORQUEDDU**, Know-how and technical environment: rethinking through technical study the emergence of rock-cut tombs in the Neolithic Mediterranean
- 10:15 **Nuria CASTAÑEDA, Susana CONSUEGRA, Pedro DÍAZ-DEL-RÍO, Javier BAENA**, Middle Palaeolithic flint extraction at Casa Montero (Madrid, Spain)
- 10:35 **Daniela GALAZZO**, A study of quartzite quarries in Egypt
- 10:55 **Discussion**
- 11:10 **COFFEE BREAK**
- 11:20 **Thierry GRÉGOR, Jérôme ROHMER, A. ALSUHAIBANI**, Stone extraction in Northwest Arabia, from the Iron Age to the early 20th century. New insights from Dadan (Saudi Arabia)
- 11:40 **Claudia SCIUTO**, The hand, the mind, and the stone: technical tendencies and the development of collective know-how in stone extraction procedures
- 12:00 **Germano GERMANÒ**, Underground and open-pit quarries in Polignano a Mare (Italy): a preliminary investigation
- 12:20 **Discussion**
- 12:35 **LUNCH BREAK**
- 13:45 **Paul PEIGNOT**, The Alleged pre-Nabataean chambers at Hegra
- 14:05 **Christopher J. LYES**, Theorising Ancient Quarries: How far have we come?
- 14:25 **Giancarlo PASTURA, Elisabetta DE MINICIS, Matteo ZAGAROLA, Letizia TESSICINI**, The evolution of negative architectures: two cases from Orte (VT, Italy)
- 14:45 **Discussion**
- 15:00 **KEYNOTE LECTURE:** Francesca SOGLIANI, The DARHEM project - Digital Atlas of Rupestrian Heritage of Matera
- 15:20 **Discussion**
